III. NewWaterWisconsin.org website

a) Review changes – NEWWaterWisconsin.org

Some of the website was reviewed. It was determined to wait to review the remainder of the site until the decision regarding the future of the website was made.

For the future: "At Home" delete the menu items from At Home – that will encourage the guest to visit the "At Home" page and view the graphic. Until the graphic is updated the drop down menu will feature all the topics without seasons.

b) "At School" discussion

Committee would like to see this menu item feature information for kids, parents and teachers. Fox Wolf records should have a binder of information compiled for kids and educators.

Prior goal was to be more involved with K-12 education. Work with Links to other websites until NEWSC develops their own information.
